"I am very impressed with the service and thrilled I invested in iM3 equipment. I am loving the machine!" (42-12 ultrasonic scaler & elite LED)
Dr Louisa Poutsma, Mobile Vet
Incisor Luxator
Used to aid extraction of rabbit incisors. The instrument is used to break down periodontal ligaments on the distal and mesial aspects of the incisor teeth.
Cat. No D1026
£24.90

Molar Luxator
Designed for the extraction of rabbit cheek teeth. This instrument is used to break down periodontal ligaments on all four aspects of the premolar and molar teeth.
Cat. No D1027
£24.90

Spatula
Enhances examination of the teeth by repositioning the tongue and cheeks. Features a light weight handle.
Cat. No D1028
£15.00

Cheek Dilator – X-Small
Suitable for very small mammals where the small cheek dilator is found to be too big.
Cat. No D1035
£11.50

Cheek Dilator – Small
Suitable for smaller mammals such as chinchillas and guinea pigs, enhancing inspection of the oral cavity.
Cat. No D1030
£12.00

Cheek Dilator – Large
Suitable for larger rabbits.
Cat. No D1031
£12.50

Cheek Dilator Long Reach Curved – Medium 40mm
This long reach 40mm cheek dilator is ideal when using long diamond burs to reduce molar teeth. The radius of the paddle provides better access and viewing as it pushes the cheeks away from the molar teeth. iM3’s unique design was developed with the help of Peter Haseler B.Vet.Med. MRCVS, Past president of the British Veterinary Dental Association (BVDA) Member of BVDA and EVDS. (not included in D1034 8pc kit)
Cat. No D1046
£19.50

Cheek Dilator Long Reach Curved – Large 60mm
Cat. No D1047
£20.99

Rodent Wire Mouth Gag
Lightweight design with light spring action. Suitable for chinchillas, guinea pigs, rats and small rabbits. Enhances inspection of oral cavity.
Cat. No D1032
£21.90

Rodent Mouth Gag
Designed by iM3. The Jaws of the new Rodent mouth gag are covered in soft plastic reducing trauma. This gag is lighter than comparable gags to reduce the weight on the animals jaws. Autoclavable.
Cat. No D1045
£36.90

Rabbit Molar Cutters
Ideal for trimming excessively long cheek teeth which should then be smoothed off using the extra long diamond bur (Pictured page 8 D2235). By reducing the length with the molar cutters first, this will reduce bur wear and possible thermal injury to the tooth. Care should be taken to avoid tooth fractures and soft tissue damage.
Cat. No D1045
£36.90

Soft plastic reducing trauma
**Cheek Teeth Extraction Forceps (Molar Teeth)**

Specifically designed for the removal of premolar and molar teeth in rabbits. The forcep jaws are narrow and angled at 100 degrees to improve access to the cheek teeth.

€39.00

---

**Unique iM3 Design**

**Incisor Luxator for labial and lingual/palatal tooth aspects**

The luxators are used to cut the periodontal ligament and expanding the alveolus by inserting the sharp instrument into the socket. Both incisor luxators are needed to extract the upper and lower incisors.

€24.00 each

---

**8 Piece Complete Rabbit and Rodent Kit**

A piece complete set in zipper case. Each instrument is individually available.

€179.00

Contains:
- Incisor Luxator
- Molar Luxator
- Spatula
- Cheek Dilator - Small
- Cheek Dilator - Large
- Rodent Wire Mouth Gag
- Rodent Mouth Gag
- Cheek Teeth Extraction Forceps (Molar Teeth)

This instrument set was developed with the help of Dr David Vella BSc BVSc (Hons) Diplomate ABVP (Exotic Companion Mammals).

---

**TTMG - Table Top Mouth Gag (Rabbit/Rodent)**

The TTMG was designed by iM3 with the help of specialists to hold the anaesthetised rabbit or rodent in the best possible position for examination and treatment of the oral cavity without assistance.

- Adjustable height stainless steel gags to suit any size rabbit or rodent
- Adjustable table height ensures the best viewing angle of the oral cavity
- Washable silicon pad under the patient reduces heat loss and is easy to clean
- The complete TTMG is easy to clean and autoclavable

Quality components and innovative design for ease of use.

Optional Heater Pad
- Temperature controlled silicon heater pad. Further minimises body temperature loss.
  Supplied complete with low voltage power supply with international approvals.
- LED Light for improved illumination of the oral cavity. See T2200 below.

€109.00

Orange heated silicon pad & transformer

---

**LED Light**

1 watt bright white LED light with 30cm flexible neck.

€58.00

The LED light is ideal for illuminating the oral cavity during rabbit dentistry. The flexible 30cm neck allows the bright light to be easily focused on the area of interest. The LED light is also suitable for the consulting room and surgery where a bright white light is needed. The LED light is supplied with a 110 – 240v transformer and 3m long power cord.
**iM3 Small Animal Dental Equipment**

**Soft Tissue Protector and Diamond Disc Safety Shield**
Dental Instruments for rabbits, guinea pigs and chinchillas. The iM3 soft tissue kit is an ideal set of instruments for reducing and leveling molar and incisor teeth.

Complete set €108.00

1) **Diamond Disc Cutter**
   23 mm, coated on both sides with HP mandrel
   - €19.95

2) **Safety Shield**
   Fits L6860. Safety shield for diamond disc, stainless steel
   - €41.30

3) **Soft Tissue Protector**
   Fits L6860. The soft tissue protector guards the tongue and cheeks by exposing only the bottom cutting surface of the diamond bur when used on cheek teeth.
   - €41.30

4) **Long Cutting HP Bur**
   Diamond bur X-long 60 mm.
   Diamond cleaning stone available (D9750)
   - €11.95

The above items fit a straight nose cone 1:1 (Blue) fitted to a low speed motor. (shown below).

5) **Straight Nose Cone 1:1 (Blue)**
   Straight Nose Cone 1:1 ratio (blue) use HP burs for rabbit and orthopaedic work.
   Autoclavable
   - €99.00

All parts are available separately.

---

**NEW**

1:1 LED Advantage Straight Nose Cone

- Self generated LED white daylight, produced by the drive shaft of the low speed air motor or electric micromotor
- Large illumination area providing outstanding visibility
- Coolant delivery tube, removable/adjustable sterile coolant to any bur length
- Ideal for rabbit dentistry and orthopaedic work. Autoclavable.
- Takes HP burs and 3/32” drills

€1060.00

We purchased your LED Advantage Straight Nose Cone and the L6200 Low Speed Motor to fit our countertop dental unit. This nose cone has increased our ability to perform dental procedures on our smaller pocket pets. The LED light allows the veterinarian to easily visualize the molar teeth and the varying sizes of burs help to rapidly improve the occlusion on the cheek teeth. It has dramatically cut the time needed for these procedures. We couldn’t be happier with this unit and recommend it to anyone doing pocket pet dentistry!”

Mary L. Berg, BS, RLATG, RVT, VTS (Dentistry)

---

**Leporidae Skull Model**
IM3’s new Leporidae skull model allows you to observe the tooth and root pattern of a typical rabbit and demonstrate to your clients why a procedure is necessary and what will be involved.

Also included with the model is an education card. The card is double sided and shows the location of the nasolacrimal duct. The other side shows teeth location, name and numbering for easy identification.

€69.00
iM3 Luxators and Winged Elevators

The dental instruments that meet the needs of the modern day Veterinarian

iM3 Luxators are very fine and sharp. The 5 sizes make them ideal for both canine and feline teeth. They are used and recommended by dental specialists for cutting the periodontal ligament and expanding the alveolus (tooth socket).

iM3 winged elevators are available in 6 sizes and are used to elevate and extract the tooth. The winged shape of the elevator tip matches the curve of the tooth and the extra leverage aids in extraction.

iM3 instruments are developed with the guidance of veterinary specialists and are backed by a lifetime warranty.*

*Lifetime warranty covers faulty material and workmanship. Damage due to the incorrect use or handling of the instrument is not covered by the lifetime warranty.

www.im3vet.com

Veterinary Winged Dental Elevators

iM3 winged elevators are light-weight yet extremely durable. The sharp, tapered winged tip allows easy insertion into the PDL. The width of the winged tips have been shaped to match the size and shape of the tooth’s root structure (sizes 1-6 mm). This unique winged shape increases control of the instrument and provides additional leverage to aid in extraction of the tooth.

iM3 Wedge Dental Sharpening Stone

The wedge sharpening stone has a flat surface with a radius on either side. Dental hand instruments should be kept sharp and true to their original design. For best results, instruments should be sharpened after use. This Arkansas stone should be used with water or oil. Sharpening instructions included.
€17.50
Cat. No A3110

iM3 Luxators

iM3 Luxators, sizes 1-5mm are very fine and sharp. They are used and recommended by dental specialists for cutting the periodontal ligament and expanding the alveolus (tooth socket). The stubby (shorter length and larger diameter) handle makes extraction so much safer as the user’s fingers can be placed at the instrument tip. Luxators are not elevators, we recommend winged elevators are used to elevate and extract the tooth.
€98.00

Spc Luxator instrument set (1-5mm Stubby)

€21.00
Cat. No D4505

Dr Loic Legendre at the AVDS dental workshop. Sponsored by IM3
**Explorer/Measuring Probe**  
Cat. No D1010  
The probe end has periodontal markings etched in black. The fine but robust tip is ideal for periodontal probing in cats or dogs. The markings will not fade even after many autoclave cycles. The other end of the probe has a shepherd hook explorer to detect tooth defects both supra and subgingivally.  
€15.00

**Double Ended Periosteal Elevator**  
Cat. No D1081  
The periosteal elevator is used to lift a mucoperiosteal flap off the bone when performing surgical extractions. The fine double-ended 2/4 periosteal elevator is great for cats and small to medium dogs.  
€21.00

**Sickle Scaler**  
Cat. No D1009  
The scaler is used to remove plaque and calculus from the tooth surface. The sickle scaler tip can be used to remove calculus from the developmental grooves and blood grooves in canine teeth.  
€15.00

**Jaquette Supragingival Scaler**  
Cat. No D1008  
(Above the gum) The scaler is used to remove plaque and calculus from the tooth surface. It works well in tight occlusal spaces.  
€15.00

**Subgingival Curette**  
Cat. No D1007  
(Below the gum) The curette is used to clean plaque and calculus from the tooth root surface.  
€15.00

**Tartar Removing Forceps**  
Cat. No D1083  
The curved beak of the forceps allow for easy removal of heavy calculus from the tooth surface, decreasing the chance of fracturing the tooth.  
€27.00

**Extraction Forceps**  
Cat. No D1082  
Extraction forceps are used to grasp the tooth and remove from the socket after it is loosened. The small size and spring in the handle helps prevent excessive force and the risk of breaking the tooth. Overall length 125mm (5").  
€27.00

**Root Tip Extraction Forceps**  
Cat. No D1050  
Root tip extraction forceps have grooved tips with fine curved ends ideal for root extraction or as an alternative to regular extraction forceps (D1012).  
€30.90

**Fragment Extraction Forceps**  
Cat. No D1060  
Root fragment forceps are ideal for extracting mobile broken root fragments and small, delicate teeth. The grooved and serrated jaws assist with grasping fragments.  
€30.90
Instruments Specially Designed for Felines and/or Very Small Dogs

**Straight Tip Elevators**
These super slim elevators are excellent for removing teeth in cats and small dogs. They are also useful in retrieving fractured roots. Tips can be sharpened using a dental stone.

**Elevator 1mm**
1mm wide straight tip elevator with stubby handle.
€19.80
Cat. No D2001

**Elevator 2mm**
2mm wide straight tip elevator with stubby handle.
€19.80
Cat. No D2002

**Probe/Explorer**
The probe end has periodontal markings etched in black. The fine but robust tip is ideal for periodontal probing in cats or dogs. The markings will not fade even after many autoclave cycles. The other end of the probe has a shepherd hook explorer to detect tooth defects both supra and subgingivally.
€15.00
Cat. No D2003

**Very Fine Periosteal Elevator**
Double ended elevator. The small delicate flat ends of this instrument make it ideal for raising gingival flaps in cats. The rounded tip helps prevent accidental slippage and tearing of the gingival flap.
€21.00
Cat. No D2005

**Resorptive Lesion Probe**
This probe can be used to detect resorptive lesions or residual calculus subgingivally. The probe can also be used to identify furcation involvement (loss of alveolar bone between tooth roots).
€15.00
Cat. No D2006

**Sickle Scaler**
This double ended hand instrument is used for the removal of supragingival (above the gum) plaque/calculus and stains.
€15.00
Cat. No D2007

**Curette**
This sterile curette is ideal for calculus and plaque removal both supra and subgingivally (above and below the gum). The thinness of the instrument is well suited for use in cats and small dogs.
€15.00
Cat. No D2008

**iM3 Extraction Forceps**
Extraction forceps - small. These fine extraction forceps are designed to grasp small teeth. The spring action allows their use without excessive force being applied to the tooth crown. 125 mm
€27.00
Cat. No D2004

Instruments mentioned on this page are available as a set (Cat. No D2000).
€118.00
iM3 Small Animal Dental Equipment

Instrument Sets

iM3’s instrument sets take the guess work out of choosing the correct dental instrument. iM3 instruments are used throughout the world in teaching wetlabs and have been developed with the help of veterinary dental specialists. Made from high quality stainless steel, these instruments meet the needs of the modern day veterinarian.

iM3 14 Piece Instrument Set, Standard Handle Elevators

The set consists of:
- Winged elevators Size 1-5mm
- Straight root tip pick
- Tartar Removing Forceps
- Extraction Forceps
- Minnesota Retractor
- Subgingival Curette
- Jaquette Supragingival Scaler
- Sickle Scaler
- Explorer / Measuring Probe
- Double ended Periosteal Elevator

Each instrument is available individually.

iM3 14 Piece Instrument Set, Stubby Handle Elevators

The set consists of:
- Winged elevators Size 1-5mm
- Straight root tip pick
- Tartar Removing Forceps
- Extraction Forceps
- Minnesota Retractor
- Subgingival Curette
- Jaquette Supragingival Scaler
- Sickle Scaler
- Explorer / Measuring Probe
- Double ended Periosteal Elevator

Each instrument is available individually.

iM3 5 Piece Specialised Instrument Set

The set is intended as a supplement to ordinary tooth extraction sets. The curved deciduous elevators are ideal for the removal of retained canines (milk teeth). Each instrument is available individually.

iM3 4 Piece Winged Elevator Set

iM3 Winged Elevator sizes 1-4 mm in standard handle, supplied in a black pouch.
Each elevator is available individually.

Cat. No D1038

iM3 4 Piece Winged Elevator Set

iM3 Winged Elevator sizes 1-4 mm in stubby handle, supplied in a black pouch.
Each elevator is available individually.

Cat. No D1039

iM3 6 Piece Winged Elevator Set

iM3 Winged Elevator sizes 1-6 mm in standard handle, supplied in a black pouch.
Each elevator is available individually.

Cat. No D1048

iM3 6 Piece Winged Elevator Set

iM3 Winged Elevator sizes 1-6 mm stubby (shorter length and larger diameter) handle. The stubby handle makes extraction so much safer as the user’s finger can be placed at the instrument tip. The new handle design is ideal for small or large hands. Supplied in a black pouch. Each elevator is available individually.

Cat. No D1049

iM3 6 Piece Winged Elevator Set
IM3 Winged Elevator 6-pc 1-6 mm stubby length and larger diameter handle. The stubby handle makes extraction so much safer as the user’s finger can be placed at the instrument tip. The handle design is ideal for small or large hands. The set is supplied in a stainless steel autoclavable instrument holder/case. Each elevator is available individually.
€132.00
Stubby Handle Set incl. stainless steel instrument holder/case

iM3 12 piece Extraction Set - Updated
The complete extraction set provides the veterinarian with the instruments required to perform both simple and surgical extractions.
€179.00
The set consists of:
- D1001SH - D1006SH (1-6mm Stubby handle winged elevators)
- D1011 Periosteal elevator double ended 2/4
- D1012 Extraction Forceps Universal
- T1000 Needle holders – Mayo-Hegar
- T1200 Tissue forceps – Adson Brown
- T1300 La Grange Scissors, curved, one serrated blade
- T1400 Scalpel blade handle measurements inn on one side
- D1043 Supplied in stainless steel autoclavable instrument cassette. 285 x 12 x 3cm

NEW
iM3 13 piece Extraction Set
The set consists of the same 12 instruments listed above and in addition to:
- T1500 Curved Blunt Suture Scissors
The 13pc set is supplied in a large stainless steel autoclavable cassette.
€199.00
Cat. No D4100

iM3 Feline 8 Piece Instrument Set
The feline periodontal kit has been designed exclusively for use in cats and small dogs. Its design allows the practitioner to perform a complete oral examination (including detection of feline resorptive lesions) and cleaning of all tooth surfaces – both supragingivally and subgingivally. All instruments are available individually.
€118.00
Cat. No D5000
The set consists of:
- 1 mm Wide Straight Tip Elevator
- 2 mm Wide Straight Tip Elevator
- Probe/Explorer
- Extraction Forceps
- Periodontal Elevator
- Receptive Lesion Probe
- Sickle Scaler and Curette

iM3 Stainless Steel Mouth Gags
Unlike other (heavy duty spring-loaded) mouth guards that tend to overextend the temporomandibular joint, the IM3 designed mouth guard has a unique locking system that requires little force to hold the gag at the desired open position inside the animal’s mouth. The lightweight gag and spring coupled with the unique locking system reduce the risk of myalgia, neuralgia, and/or trauma to the temporomandibular joint.

iM3 Mouth Gag - 5 cm opening (1)
€9.50
Cat. No D1023

iM3 Mouth Gag - 8 cm opening (2)
€10.50
Cat. No D1024

iM3 Mouth Gag - 12 cm opening (3)
€11.90
Cat. No D1025

iM3 Mouth Gag 3 piece set
€27.00
Cat. No D1040

Needle Holders with Tungsten Carbide Jaws
Designed for multiple tasks and ideal for wiring jaws or orthopaedic work. The strong but fine jaws have tungsten carbide inserts for wire cutting.
€58.00

Antic-Fog Safety Glasses
Your sight is one of your most precious assets and deserves the best possible protection. Anti-fog safety glasses will help protect your eyes during routine veterinary dental procedures from aerosols as well as tooth or calculus fragments.
€10.95
Cat. No G0000

iM3 13 piece Extraction Set
NEW

iM3 Stainless Steel Mouth Gags

Needle Holders with Tungsten Carbide Jaws

Antic-Fog Safety Glasses

www.im3vet.com
Lip Retractor

The lip retractor is designed to hold the lip out of the way providing better access to the oral cavity during dentistry. The lip retractor removes the need for a second set of hands to hold the lip out of the way. 2 retractors may be required for a large dog. The lip retractor is suitable for all sizes of animals and is autoclavable.

€14.90

Oral curettes

D1086 Oral Curette double ended small (Feline & Canine) €13.90

D1087 Oral Curette double ended Med - Large (Canine) €13.90

The two sizes of Oral Curettes (spoon shaped) are ideal for debridging the alveolus socket after tooth extraction.

DoxiProbe

The new DoxiProbe was designed by Drs. Paul Mitchell and Randi Brannan, both AVDC diplomates to aid in detecting and treating periodontal pockets. The probe measures pocket depth and the lathed, paddle like end helps place Doxirobe in the prepared pocket.

€16.90

Leporidea Skull Model

IM3’s new Leporidea skull model allows you to observe the tooth and root pattern of a typical rabbit and demonstrate to your clients why a procedure is necessary and what will be involved.

Also included with the model is an educational card. The card is double sided and shows the location of the nasolacrimal duct. The other side shows teeth location, name and numbering for easy identification.

€69.00

Feline Clear Jaw Model

Model size 7 cm x 5 cm x 3 cm (2 3/4” x 2” x 1 1/8”)
Card size 16.5 cm x 13 cm (6 1/2” x 5 1/4”)
Included with the model is a plastic educational card showing the tooth and root location as well as the triadan numbering system for easy identification

€59.00

Canine Clear Jaw Model

Model size 12 cm x 7 cm x 5 cm (4 3/4” x 2 3/4” x 2”)
Card size 16.5 cm x 13 cm (6 1/2” x 5 1/4”)
Included with the model is a plastic educational card showing the tooth and root location as well as the triadan numbering system for easy identification.

Quick Guide for iM3 Burs

Friction Grip (FG) burs

 Normally used in high speed handpieces. FG burs have a “rounded end” and fit all standard high speed handpieces.

Right Angle (RA) Burs

Have a 22 mm long shank and a small notch at the end of the shank for locking the bur in place. These burs are commonly used in electric micromotors and low speed air driven handpieces. 20,000 - 30,000 RPM. Please note that these burs do not fit into iM3 high speed handpieces.

Friction Grip (FG) Surgical Length Burs

These burs are 25 mm long and suitable for use in LED Advantage high speed handpieces. The extra length provides greater access in larger mouths.

Round Burs

Round burs are used for removing bone, drilling holes and pulverizing roots.

Crosscut Taper Fissure Burs

These burs are used for sectioning teeth.

HP Burs

These burs are suitable for rabbit dentistry and orthopaedics. HP bur shanks are 44.5 mm long, providing the extra length needed for use in large companion or domestic animals and exotic animals. HP burs are used in the low speed handpiece fitted with a 1:1 straight nose cone. These large burs can drill through thick bone for surgical, orthopaedic and endodontic work.

iM3 recommends disposing of dental burs between each patient to reduce turbine wear of the high speed handpiece.

The iM3 Dental Unit is superior in every way. The handpieces are of much higher quality, the CLS flush system gives me piece of mind...NO COMPARISON!  PRO2000 and 42-12, Carbondale , Co USA
FG Bur Kit – Canine
The canine bur kit comes with an assortment of FG burs 19mm long. The selected burs meet the various requirements of a veterinary clinic and are used in the high speed handpiece. (1) €49.95

FG Bur Kit – Feline
These short shank burs 16 mm are preferred for use in the confines of the feline oral cavity. This kit contains an extra fine diamond bur for smoothing neck lesions (CLL’s, FORL’s). (2) €49.95

HP Bur Kit
HP bur shanks are 44.5 mm long, providing the extra length needed for use in large companion or domestic animals and exotic animals. HP burs are used in the low speed handpiece fitted with a 1:1 straight nose cone. The handpiece, SNC 1:1 and HP bur can be autoclaved. These large burs can drill through thick bone for surgical, orthopaedic and endodontic work. (3) €65.95

RA Bur Kit
These right angle burs have a 22mm long shank and a small notch at the end of the shank for locking the bur in place. These burs are commonly used in electric micromotors and low speed air driven handpieces. 20,000 - 30,000 RPM. (4) €51.90

Bur Holder excl. Burs
Autoclavable aluminium bur holder for 10 FG burs. (5) €21.95

FG Plain Round Bur
Pack of 5 autoclavable burs. For removing bone, drilling holes and pulverizing roots. iM3 recommends size 2 & 4 for cats and small dogs and size 4 & 6 for larger dogs. €13.99 (pack of 5, product code pictured left)

FG Crosscut Taper Fissure Bur
Pack of 5 autoclavable burs. For sectioning teeth. iM3 recommends size 699 & 701L for cats and small dogs and size 702L for larger dogs. €13.99 (pack of 5, product code pictured left)

FG Surgical Length Burs
Pack of 5 autoclavable burs. The extra length provides greater access in large mouths. These burs are 25mm long and only suitable for use in the LS1001/LS200/LS300 LED Advantage/high speed handpiece. €17.50 (pack of 5, product code pictured left)

iM3 FG Diamond Assorted Bur set – 5pc
€19.95
iM3 medium grit (blue band) diamond bur set featuring precision European made diamond burs. Suitable for use in any high speed dental handpiece. The set consists of 1 x size 4, 6 and 8 plain round and 1 x round end taper and football bur.
CLS Solution 250ml concentrate
CLS is a uniquely formulated dental solution designed to reduce bur cutting time and mask mouth odour (spearmint). CLS contains chlorhexidine and can be used in the water supply of any dental machine or ultrasonic scaler. CLS is guaranteed when used at the correct dilution with distilled water not to block the water lines or coolant system. Easy to mix - just add distilled water to make 1L of working solution.

Important Note:
Products containing chlorhexidine may cause oedema with prolonged oral use. Pack the back of the throat to minimise this risk.

CLS Solution 250ml concentrate - single C3150
£7.90
CLS Solution 250ml concentrate - 6 pack
£39.90

iM3 iC Plaque
The iM3 iC Plaque disclosing swabs show when plaque is present on the teeth. These applicators are quick and easy to use. By simply rolling the swab gently across the teeth at the gum edge the plaque stains pink to indicate germ-filled layers on the teeth. This is a visible sign of periodontal disease. And it’s there; simple and easy for your client to see.

iM3 iC Plaque, 72/pk
Cat. No M1301
€32.00
- Plaque indicating swabs
- Plaque is the cause of periodontal disease
- Plaque is invisible until stained
- Highlights the areas where plaque is present - you will be surprised by how much plaque is present
- It is a helpful tool in painting a picture of the animal’s oral health for the owner
- Useful when scaling the animal’s teeth to ensure that all the plaque has been removed during the procedure
- Saves time scaling by indicating plaque and calculus on the teeth
- Will increase dental procedures within the clinic
- Quick and easy to use
- Excellent training tool
- Convenient dispenser box

iM3 iClean Prophy Paste
iClean R&R polishing paste has been specially formulated for use with iM3 R&R oscillating disposable prophy angles. The oscillating action requires a slightly coarser paste than conventional polishing heads. Convenient to use, individual cups help reduce cross contamination and minimise the transfer of viruses between animals. Won’t splatter and does not contain flavour oils or fluoride. Packaged in a convenient bag of 100 individual units with finger holder supplied.

iClean Prophy Paste with Fluoride, Fine Grit, Fruit Flavour (smells like bubblegum) – 255g Tub
Cat. No L7500
£11.95
A fine grit prophy paste with fluoride and fruit flavour (smells like bubblegum) iClean R&R polishing paste has been specially formulated for use in animals. The fine grit paste is suitable for all polishing cups. Adequate dental polishing is a must!

iM3 Oscillating Disposable Prophy Angle, 100/pk
Rock and Roll prophy angles are complete, ready to use with a soft rubber prophy cups. The R&Rs are pre-lubricated and iM3’s unique blue colour is your guarantee of the prophy angle lasting a complete procedure. The 90° reciprocating ‘back and forth’ action of the prophy cup prevents the animals’ muzzles hair from being tangled and allows the cup to have continuous contact and pressure on the tooth surface. The reciprocating action also reduces heat and friction on the tooth. Traditional prophy angles spin 360 deg, wind muzzles hair and generate excessive heat.

Guaranteed not to catch hair or whiskers!
Also reduces heat/friction

iClean R&R Prophy Paste, Med Grit, no Fluoride – Bag of 100 x 2g individual units complete with finger holder
Cat. No L7510
€19.95
Why iM3 LED light?
With a colour temperature of 5,500 K, the iM3 LED Advantage handpiece produces a radiation spectrum that corresponds to daylight. The high colour rendering index (CRI 90) of the LED enables relaxed work thanks to daylight quality light and provides exceptional reproduction of natural colours and clear colour contrasts in the mouth.

Reliable – Efficient – Precise – iM3 Advantage
Excellent ergonomics
Fatigue-free working thanks to easy 360-degree rotation of the turbine on the coupling, low overall weight and slender design. Unique handpiece design allows component replacement on site by the user.

LED Advantage Swivel High Speed Handpiece
New high tooth handpiece is ideal for small mouths, with all the advantages of the iM3 LED handpieces
€825.00
• Self generating LED illumination, no electricity – just needs air
• Daylight quality bright white light, unlike yellow F/O
• Largest illumination area of any dental handpiece
• Patented turbine design eliminates bacterial/viral suction
• Autoclavable
• Three spray coolant outlet for effective bur cooling
• 1 year complete handpiece warranty including the turbine and chuck mechanism
• Swivel handpiece will reduce fatigue and removes handpiece tension on the operator’s wrist
• 360º swivel with quick release coupling housing the LED generator
• Fits all air driven dental machines with four hole connection

"... it seems like such a simple concept, but one that significantly reduces the need to torque your wrist or constantly re-position the handpiece to achieve the appropriate angle of approach to a tooth. It also helps reduce the pull of the weight of the cord on your wrist..."
Lina N. Mohamed, DVM
Interbay Veterinary Hospital, Seattle, WA

LED Advantage Swivel Coupling
€250.00
Self generating LED coupling allows the use of LED handpieces on dental machines without light. No wire required just air from the dental machine

Advantage handpiece + LED coupling with generator = independent light. The integration of a generator in the swivel coupling (L7400) gives you a low-cost option of having multiple LED handpieces (L7200) sterilizable up to 135 degrees Celsius

Patented hygienic head system
Prevents aerosol particles from being sucked into the turbine

iPush Tool
The iPush Tool makes inserting a bur into a push button handpiece a breeze.

iPush Tool, black (fits Cat. No L5200, L5300)
€17.50
iPush Tool, yellow (fits Cat. No L5200S, L5300S, L7100 and L7200)
€17.50

For L5200 and L5300
For L5200S, L5300S, L7100 and L7200

Designed and Manufactured by iM3. EC Patent No. 001882788 USA Patent No 29/398937
### iM3 Advantage Low Speed Motor

TRENDS MAGAZINE

Not all ultrasonic scalers are the same!

“A survey of 4737 AAHA Members in the USA - of which 667 responded completing a comparison of the 5 major ultrasonic dental scalers in 15 categories - iM3 came in first in every category, scoring a 90% overall satisfaction.

The Ultrasonic difference - Amplitude, Frequency and Tip Motion.

42-12 Ultrasonic scaler (42,000 cycles) iM3
The 42-12 scaler is unique as it uses the high ultrasonic frequency to remove the plaque and calculus not the physical scraping of the tooth as do the scalers mentioned above. The 42-12 tip is totally round and rotates in a circular motion 0.02mm causing little or no enamel damage. The tip has no sharp sides like the Piezo or Cavition style scaler. The 42-12 scaling tip is made from titanium and is fitted with a ferrite rod (not metal). The tip generates little or no heat and can be safely used subgingivally up to 13mm. The big advantage of the 42-12 is the speed at which a prophylaxis can be performed and the ability to use safely subgingivally. Many users report that scaling time is reduced by half when compared to previous scalers used.

Piezo Ultrasonic scaler (30 – 38,000 cycles)
Piezo ultrasonic scalers have more power and generate less heat than cavition style scalers mentioned above. The tip action is linear and the movement of the tip is used to remove plaque and calculus by physically scraping the tooth's surface. The tip should never be used on its point as it will work like a jackhammer (wood pecker) and create a hole in the tooth. The main disadvantage of the Piezo is still the heat generated, enamel damage and the limitations of scaling 1-2mm safely subgingivally.

iM3 P6 Piezo Ultrasonic Scaler
The newly designed Piezo P6 dental scaler is compact in size and high in quality. The P6 is designed and manufactured to meet the most demanding scaling environment. System is portable and lightweight weighing only 3.52 lbs; it comes with a built in power setting dial (1-20) that allows users to set power output at their desired level of operation. Both the handpiece and tips are autoclavable and Satelec® compatible.

Technical specifications are as follows:
- Power Supply: Available in either 115Volts or 230 Volts - Working Freq.: 30,000 Hz (cycles) individual stand alone unit.
- System includes 4 tips and 1 tip wrench.
- Connects directly to the water system of any iM3 air driven dental machine.
- Pump up water tank with fittings available for stand alone use.
- Dimension: 7.68"Lx3.18"Wlx3.27"H - Weight: 3.52 lbs.
- Warranted, sold and serviced by iM3.

Replacement Scaling Tips P4 and P6
- 1. BS-3 Round Tip €34.33 iM3 Code U2014
- 2. BS-2 Square Tip €34.33 iM3 Code U2013
- 3. BS-1 Pointed tip (recommended) €34.33 iM3 Code U2002
iM3 Ultra LED
€1150.00

The new iM3 Piezo ultrasonic scaler with LED light technology has been designed for use in the areas of scaling, periodontology, endodontics, and micro-preparation. Thanks to the Ultra LED Piezo Scaler, you can be sure to achieve the best results in all applications.

The ergonomic design of the handpiece and the light weight make it possible for you to work for longer without becoming tired. The handpiece itself can be disinfected and sterilized.

Your advantages at a glance
• Allows you to work in daylight quality light
• Reflects the animal's tooth colour exactly
• Allows you to see contrasts much better
• LED ring with 5 light emitting diodes that remain on for 30 seconds to assist with oral examination
• Ergonomic design
• Perio and universal scaling tips and holders supplied
• Include water filter
• Handpiece is sterilisable up to 135 °C
• Tip changer and tip cards included
• 2 year warranty with unlimited iM3 support.

Handpiece
The Ultra LED handpiece is impressive due to its lightweight, ergonomic design and an LED ring made up of 5 light emitting diodes. The easy-to-dismantle handpiece, including the LED ring is sterilisable.

3 universal and 1 perio tips are available for the Ultra LED scaler. The tip wear guide is provided free of charge and helps identify a worn tip that needs replacing.

iM3 42-12
€1495.00

The 42-12 rapidly removes heavy calculus deposits from all tooth surfaces and is safe to use in periodontal pockets up to 13 mm deep.

The 42-12 achieves a highly polished finish on the tooth with less enamel damage by using an exceptionally high ultrasonic frequency of 42,000 Hz, coupled with an extremely low amplitude of the titanium scaler tip's circular movement of 0.02 mm.

• Power is permanently set at a high 42,000 Hz frequency (cycles) yet is safe to use in periodontal pockets up to 13 mm deep. No other veterinary ultrasonic scaler can do this safely because they produce too much heat
• Lightweight handpiece with finger on/off control right where you need it, eliminating troublesome foot control altogether
• The rotational tip movement and high ultrasonic frequency create a fine coolant mist which is adjustable
• Rapidly removes plaque and calculus from all tooth surfaces, while using a lighter touch on the enamel than required of other ultrasonic scalers
• Unit supplied with universal and perio titanium tips and spare ferrite rod
• Titanium tips last 3-4 times longer than stainless steel scaler tips
• Autoclavable handpiece and tips

Tip Wear Guide
Use the 42-12 Ultrasonic Scaler Tip Wear Guide to check whether your ultrasonic scaler tip needs to be replaced.

1. Tip wear will significantly reduce scaler performance as it will alter the ultrasonic frequency
2. The ferrite rod must be tight – a loose or broken rod will cause poor or no vibration
3. A correctly functioning tip used on a power setting of 3-4 lights will produce a coolant mist around the tip.

Faster, easier to use, quieter; less tooth damage. In a class of its own compared to anything else!

42-12 USER UTAH, USA
Prior to experiencing your handpieces, I had no idea how much easier a surgical extraction could be!

IM3 USER, USA

**iM3 PL3 polisher**

**€556.21**

The iM3 PL3 polisher is a user-friendly, stylish, and compact system. The polisher features a built-in digital display for viewing motor rotation speed and offers speed control of 0 to 30,000 RPM. The PL3 comes equipped with Automatic Feedback Control and powerful torque.

The iM3 PL3 includes:
- Micro-motor, iM3 1:1 straight nose cone, foot pedal and 10 iM3 oscillating disposable prophy cups and paste.
- Dimensions (L x W x H): 19.2cm x 15.5cm x 8.5cm
- Hand piece cable length: 2.5m
- Max Polisher Speed: 30,000 RPM
- iM3 HP dental Burs and contra attachments available
- Warranted, sold and serviced by IM3.

**iM3 SP6 P6 Piezo Scaler and Micromotor**

**€957.00**

The iM3-SP6 combines the latest Piezo P6 technology and micromotor in a compact user friendly design. The power setting for both the scaler and micromotor are easily adjusted via the digital LCD display and the micromotor rotates up to 30,000 rpm. The iM3-SP6 is supplied with a 1:1 straight nose cone allowing the system to be used for polishing with the prophy angles supplied and the speed turned down to approximately 4,000 rpm.

HP burs available from iM3 can be used in the straight nose cone for cutting and sectioning teeth.

**IM3-SP6 is supplied with:**
- 2 universal scaling tips
- Footpedal control on/off
- Micromotor with E fitting
- iM3 1:1 straight nose cone (Blue) starter polishing pack including prophy angles and paste, water line with male QD connector

* Not available in all countries.

iM3 Pro 2000 Dental Unit
The iM3 Pro 2000 combines all the features iM3 have to offer in a compact self contained dental system. The added storage under the Corian® top and the option of having two LED high speed handpieces make this system a must for the busy veterinary practice.

Our technicians fought over who got to use the iM3 so we had to buy a second one!

PRO2000 User, Oxford, OH, USA

Features and Benefits of the iM3 Pro 2000 Dental Unit
The Pro 2000 is fitted with an LED Advantage high speed handpiece that features 360 degree swivel reducing unnecessary hand fatigue and allows greater control of the handpiece.

Furthermore the Pro 2000 dental unit is supplied with an additional handpiece cable which gives you the option of having two LED high speed handpieces or an additional low speed handpiece with water cooling.

This high end dental unit is recommended for the busy veterinary practice and it gives the practice all the features iM3 have to offer in a compact self contained dental system.

The Pro 2000 offers a large useable storage space. The smart hinge system means the corian top stays flat when its top is opened. Unlike other dental machines with tops that open up from a hinge at the back, the iM3 hinge system means the items on top do not fall on the floor.

The built in magnetic bur holder prevents the burs from falling on the floor.

The Pro 2000 includes an LED light wand for oral illumination. The light allows you to explore the mouth, see cracks in teeth, while providing additional light in the mouth.

The Pro 2000 is fitted with a two bottle water system with auto pressure release. The advantage of the two bottle system is that it allows the user to choose between CLS (chlorhexidine based solution) and water depending on the procedure.

It’s difficult and expensive to send a large (all in one) dental machine away for servicing. The Pro 2000 is built to last. The cartridge and water valves designed by iM3 will keep working well beyond the life of an ordinary valve. Our systems are unique and our engineering is so functional, you will be impressed by the minimal amount of maintenance required to keep your system in top working order.

Our technicians fought over who got to use the iM3 so we had to buy a second one!

PRO2000 User, Oxford, OH, USA

Corian® Top, impervious to bacteria, easy to clean and maintain. Storage underneath

iM3 Small Animal Dental Equipment
iM3 Small Animal Dental Equipment

**iM3 elite LED Dental Unit**

The elite dental system features advanced LED light in the high speed drill, automatic handpiece activators and the only fully autoclavable air driven dental suction in the industry.

**Cat. No**

U3500

---

**LED Advantage Swivel HS Handpiece**

Excellent ergonomics.

The iM3 42-12 ultrasonic scaler (pictured) or any brand of scaler can be connected to the water and power supply of an iM3 dental machine. The dental machine is self contained and only one power cord is required to power the machine and ultrasonic scaler.

---

**iM3 elite LED with Oil Free Compressor**

€5295.00

---

**Features and Benefits of the iM3 elite Dental Unit**

iM3 has developed a variable suction dental unit that is totally autoclavable. The suction tips, handpiece and smooth bore suction tubing can be easily removed and autoclaved.

The suction waste is collected in a 1L container with a replaceable filter. Easily accessible and not hidden out of sight. A separate footpedal operates the suction, allowing its use in conjunction with the high speed drill or 3 way water/air syringe.

Because it’s fully autoclavable it can also be used in surgery.

The quality of the handpieces and iM3’s unique features ensures the elite dental machine is regarded as the number one in the industry. The iM3 elite comes with:

- Suction
- 3 way syringe (air, water and mist)
- Low Speed handpiece
- High speed LED handpiece with swivel - excellent ergonomics (see page 30)

The iM3 designed magnetic bur holder prevents burs from falling on the ground. The burs are held in place right where you need them. The Corian® surface is impervious to bacteria and easy to clean unlike fibreglass and plastics.

The dental machine chassis is made from aluminium with hospital grade powder coating. The machine control box and components are covered by a full 5 year warranty. The elite with its built in IEC powerboard and coolant outlet allows for the easy integration of an ultrasonic scaler.

The elite can be supplied with a height adjustable (50cm) long reach (150cm) pneumatic wall arm. The arm allows the machine to be stored against the wall and extended to the end of the wet table for use.

The air line and electricity for the dental machine are contained in the arm, removing unnecessary cables from the ground.

All iM3 machines are fitted with a low speed motor and swivel 4:1 straight nose cone (SNC) for polishing. An array of low speed attachments for rabbit dentistry, orthopaedics and restorative dentistry are available.

Not all automatic handpiece switches are the same! iM3 has developed a pneumatic switch with no electric parts. The switch can be replaced in seconds offering peace of mind. The switch removes the need to manually select the high or low speed handpiece.

---

**iM3 elite LED with oil free compressor**

€5295.00
iM3 GS Deluxe LED Dental Unit
The iM3 GS Deluxe LED sets the standard for veterinary dental machines. The GS Deluxe LED is a complete dental system with advanced features not found on any other dental machine. Quality handpieces coupled with a 5 year dental machine and oil free compressor warranty provides peace of mind.

Features and Benefits of the GS Deluxe LED Dental Unit

- The GS Deluxe LED is a complete dental system with advanced features not found on any other dental machine.
- The industry first self generating LED light Advantage high speed swivel handpiece removes the need for troublesome fibre optic wiring, expensive krypton bulbs, switches and transformer. The low speed handpiece and nose cone swivels for comfort and reduces strain on the hand. The GS Deluxe is fitted with two coolant bottles. One for the CLS solution and the other for water.
- Maintenance instructions are printed on the back of the machine right where you need them.
- The GS Deluxe LED is supplied with the following high quality handpieces:
  - High speed LED handpiece
  - 3 way syringe (air, water and mist)
  - Low speed handpiece
- The SW machine also includes the 4:1 straight nose cone for polishing (L6250 p32).

NEW GS Deluxe LED SW (Slow Speed Water) Range

In addition to the standard features found on the GS Deluxe LED the new SW range includes water on the Low Speed handpiece.

The SW machine is supplied with a Low Speed Motor (with forward and reverse) and 1:1 LED contra angle handpiece with water. Recommended by some European specialists for removing bone.

- The SW machine also includes the 4:1 straight nose cone for polishing (L6250 p32).

Stainless steel instrument tray provides added storage and the ideal location. The stainless steel instrument tray is height adjustable and removable.

- The iM3 designed magnetic bur holder prevents burs from falling on the ground, they are held in place right where you need them. The Corian® surface is impervious to bacteria and easy to clean unlike fibreglass and plastics.

The machine features an adjustable coolant flow valve allowing the user to regulate the amount of coolant from the high speed handpiece.

- All iM3 toggles, buttons and auto HP valves can be changed in seconds due to the cartridge valve system used by iM3. This advanced feature allows for the quick cleaning and replacement of valves reducing machine down time and loss of revenue.

iM3 developed the first oil free compressor fitted to a dental machine with suction. Oil free technology eliminates the risk of oil contaminates entering the air supply of the dental machine. It also greatly reduces the maintenance regime. The compressor footprint is 51 x 53 cm (20 x 21”). The oil free motor generates less heat and is therefore more reliable than conventional oil compressors.

- The covered compressor makes cleaning easier. The iM3`s unique technology means the compressor air is cooled on the way to the dental machine. The side of the compressor is left open to allow adequate ventilation, no continuous running fans are required.

- Large diameter hospital grade casters make moving the dental machine simple and easy.

- Three way (air, water and mist) syringe is a useful instrument for washing away debris from the mouth. The tip is removable and autoclavable and can be rotated 360 degrees. The use of CLS in the dental machine allows easy application of chlorhexidine into the mouth during dental procedures.

- Not available in all countries.
iM3 GS Deluxe Dental Unit

The GS Deluxe is a complete dental system with endless surgical options. An optional 1:1 SNC with or without light can be fitted. These attachments accept a wide range of HP burs and have a variety of uses. The GS Deluxe can be upgraded at a later stage to include LED light on the high speed handpiece - a must for veterinary dentistry!

- Features:
  - Quality push button high speed handpiece with water cooling for fast sectioning of teeth.
  - 3-way air water syringe with the ability to select either water or CLS, and a low speed handpiece for polishing using IM3 R&R oscillating prophyl angles that won’t catch muzzle hair.
  - Three-way syringe is a useful instrument for washing away debris from the mouth. The tip is removable and autoclavable and can be rotated 360 degrees. The use of CLS in the dental machine allows for easy application of chlorhexidine into the mouth during dental procedures.
  - The Advantage High Speed handpiece (non LED) has a triple coolant spray for improved cooling of the treatment site and removal of debris. The handpiece features a patented hygienic head system preventing aerosol particles from being sucked up into the turbine. The handpiece rotates at up to 400,000 RPM making it ideal for the fast sectioning of teeth.
  - The machine features a four way IEC power outlet with switched IEC mains inlet. A spare IEC power cord is supplied with the dental machine so your existing or new ultrasonic scaler can be connected. This reduces the number of power cords on the floor.
  - Risk Management, all iM3 dental units have the maintenance instruction printed on the back of the machine. As staff turnover may occur in the clinic these instructions can be easily referenced to make sure adequate maintenance is being carried out.
  - Stainless steel instrument tray provides the added storage and the ideal location for your iM3 dental instruments in an autoclavable tray. The stainless steel instrument tray is height adjustable and removable.
  - Blue autoclavable IM3 instrument tray not included.

- Specifications:
  - IM3 5 Year warranty with unlimited factory direct technical support.

- Pricing:
  - IM3 GS Deluxe (non LED) with oil free compressor: €4195.00
  - IM3 GS Deluxe (non LED) with oil free compressor: €4195.00

iM3 Small Animal Dental Equipment

iM3 GS Deluxe (non LED) with oil free compressor
€4195.00
Features and Benefits of the iM3 Dental Units

The iM3 features make the difference. Our attention to detail and hands on experience in veterinary dentistry means our machines are designed to meet the needs of today’s veterinarian. From the general practitioner to the advanced veterinary dental specialist, iM3 equipment is the machine of choice for general practice veterinarians, universities, zoos and teaching hospitals throughout the world.

All iM3 air driven dental machines use the same high quality components developed by iM3 and are backed by a 5-year warranty on the dental machine and 1 year on the handpiece.

Pressurised coolant (water or CLS) outlet for any brand of ultrasonic scaler.

All maintenance instructions are printed on the back of the dental machine, right where you need them.

All iM3 toggles, buttons and auto handpiece valves can be changed in seconds due to the cartridge valve system used by iM3. This advanced feature allows for the quick cleaning and replacement of valves reducing machine downtime and lost revenue.

Water filters (65 micron) minimise contaminants entering the dental system.

iM3 developed the first oil free compressor fitted to a dental machine with suction. Oil free technology eliminates the risk of oil contaminants entering the air supply of the dental machine. It also greatly reduces the maintenance regime. The compressor footprint is 51 x 53cm (20 x 21”) making it simple to move around a small work space. The oil free motor generates less heat and is therefore more reliable than conventional oil compressors. Large diameter hospital grade casters make moving the dental machine simple and easy.

All internal air and water lines are colour coded for easy repair should it become necessary, and easy to understand.

Features and Options

iM3 dental machines are made by iM3. We are happy to customize a dental machine to suit your needs.

iM3’s quiet oil free compressor.

All iM3 dental machines can be wall or floor stand mounted with an external air source, using most of which you can carry out yourself.

All iM3 equipment is the machine of choice for general practice veterinarians, universities, zoos and teaching hospitals throughout the world.

All internal air and water lines are colour coded for easy repair should it become necessary, and easy to understand.
iM3 Small Animal Dental Equipment

Built to last, easy to maintain and service. Unique features to easily maintain your iM3 Workstation:

- Colour coded delivery system aids in fast fault diagnosis or simple replacement by you in your hospital
- Maintenance instructions printed on the chassis of the GS, elite and Pro 2000 machines for quick reference
- New low maintenance oil free quiet compressor designed by iM3 to provide oil free air to the dental machine with handy aluminium cover for storing footpedals when not in use
- Ergonomically designed iM3 low and high speed dental handpieces have been developed specifically for the veterinarian. The design makes changing a prophy cup or dental bur straightforward and will result in a longer working life of the handpiece
- Cartridge valves – the toggle valves on all iM3 units use a unique cartridge system allowing the operator to replace the valves quickly, should it become necessary with no down time, another industry first!

Warranties

iM3 products have been manufactured with great care by highly qualified technicians using a wide variety of tests and controls designed to ensure faultless operation.

To maintain a high standard of quality control, every dental system sold by iM3 is thoroughly tested and operated complete with the hand pieces and coolant before it is packaged for delivery. The quality of workmanship and unique design features used to build every iM3 are so good that our range of dental machines now carry a warranty which is setting new standards within the veterinary dental industry. Up to 5 years for our range of air driven dental machines.

Every iM3 unit purchased comes with our “Free loaners for life” program.

At iM3, our reputation and passion is your guarantee of advanced technology, unique features and quality workmanship. We design them, we build them and we service them. We know your iM3 workstation inside and out.

Free Technical Support is included with every iM3 Dental Workstation

The relationship with our customers is of the utmost importance to us, to ensure that our products are performing to a standard we’re proud to offer. The iM3 Superior Technical Support Team comes FREE with every iM3 dental workstation or iM3 product.

Our technical support team will continue to look after your dental system and all questions regarding handpieces, operational issues or maintenance long after you’ve taken delivery. We will help you to achieve the most out of your iM3 workstation and make veterinary dentistry a rewarding part of your day.

Call us anytime during business hours on our ‘Tech Support Line’ and we’ll take care of all your needs or email us with your query and we’ll get back to you promptly.

*During Normal Business Hours

Confused about dental radiology, CR vs DR?

You’d be hard placed to find another piece of equipment that ticks those elusive three boxes of good investment more effectively.”

Dr. David Nicol, MRCVS

I have used a number of DR systems in the past, both in veterinary and human practice (Schick, Sirona, Kodak and Genoray), but I would have to say that the results and image quality that I am getting with the iM3 CR7 Vet is the best so far.

The advantages of the CR7 Vet over other DR systems when used in the veterinary environment include a unique range of plate sizes from size 0 up to size 5, which covers all pets from small to large. There is even an intraoral plate for rabbits.”

Dr. Anthony Caiafa
BVSc BDSc MACVSc (SA Surgery and Veterinary Dentistry)
Dental Radiographs reveal underlying pathology

Intraoral radiographs have revealed underlying pathology in:

- 27.8% of dogs where no abnormal findings were found on oral examination
- 41.7% of cats where no abnormal findings were found on oral examination

Current AAHA Guidelines (American Animal Hospital Association) for dental care in cats and dogs advocate routine whole mouth radiographs for all patients receiving professional cleaning (ie: Grade 1) and periodontal therapy (ie: Grade 2-4).

CR7 Vet. The benchmark in digital X-Ray imaging for veterinary dentistry

- Excellent quality, superior resolution images via Vet-Exam software
- Can be networked across 10 PCs in the practice
- Full DICOM compliance ensures easy export of data
- Incredibly compact at 23cm x 22.6cm x 24.3cm. Only 6kg.
- Unique design protects unit and radiographs from dust, hair and particles that can reduce image quality
- Easily removed plate feeder for cleaning
- Plate feeder accepts all image plate sizes without the need to change loading cradles - unlike other systems
- Largest range of plate sizes
- Precision German manufacture with full 2 year warranty
- iM3 technical support

CR7 Vet. No chemicals, no waste, no delay.

- Delivers excellent quality, high resolution images via Vet-Exam software (less than 12 sec for size 2 plate)
- Cost effective high quality plates can be reused 1,000s of times
- Largest range of flexible plate sizes from 0 to 5. Perfect for dental and extremity radiographs
- Flexible thin plates allow for easy positioning in the animal’s mouth
- Unique barrier sleeves protect plates from light, contamination and damage during use

The CR7 Vet image plate x-ray scanner complete with software and size 2 & 4 plates £8700.00

- CR7 Vet Technical specifications
  - Voltage: 100 – 240 volt
  - Resolution: 25 lp/mm
  - Laser spot: 12.5 μm
  - Dimensions: 23.4 cm x 22.6 cm x 24.3 cm
  - Weight: 6.5kg
  - Grey levels: 16 bit (65,536)

The only scanner currently available worldwide with intraoral plates for rabbits

Intuitive software for quick and easy operation

The easy-to-use interface allows for simple and easy operation. The practice friendly vet specific software allows easy identification of owner and animal specifics, evaluation of image, diagnosis and patient reports complete with radiographs.

Using the self-explanatory pictograms, the correct examination parameters can be quickly chosen. Full DICOM compliance allows easy export of data to remote applications. DICOM send - optional.

The only scanner currently available worldwide with intraoral plates for rabbits

CR 7 VET image plate x-ray scanner complete with software and size 2 & 4 plates £8700.00

- CR7 Vet system includes:
  - CR7 image plate scanner and Vet-Exam software
  - 10 Network licences and PACS functionality
  - Size 2 (4pcs) and size 4 (1pc) imaging plates
  - 300 size 2 and 100 size 4 barrier sleeves
  - 2 year warranty with ongoing iM3 Technical Support
  - Protective dust cover
The Revolution 4DC features the latest technology. The full-swivel ball-joint is revolutionary in every sense. The tube head revolves freely around the sphere, so that practically any position can be achieved, including vertical. An automatic touch-sensitive lock-on/lock-off device enables effortless repositioning of the tube head between exposures.

**Comfortable grip**
Ergonomically shaped areas on either side of the tube head make rapid positioning easy and effortless to achieve. Right at your finger tips.

**Touch-sensitive zones**
Two conveniently placed touch sensitive zones unlock the tube head for quick and easy positioning. As soon as the operator lets go, the tube head locks into place with great precision.

**Lightweight and compact**
Revolution 4DC is equipped with a 12” X-ray collimator almost entirely integrated into the tube head body. This makes the tube head itself a more compact lightweight component than would otherwise be possible. The unique tube head design, together with the stable aluminium arms, make this unit effortless to manoeuvre.

**Simple wireless control**
One handheld wireless digital control device allows you to program the unit from wherever you are in the surgery. There are no other wall-mounted or wired control panels to worry about. Easy to use and easy to handle, the control device offers a full range of intuitive exposure scenarios designed to make correct X-ray acquisition a straightforward process. No more complex programming or button-crowded panels. The Revolution 4DC automatically defines the correct exposure by selecting the region of interest.

**Portable Dental X-Ray**
**Revolution 4DC**
- **Precision Imaging**
  - Specifically conceived for digital X-ray imaging, the constant potential tube head combined with the smallest focal spot available for intraoral imaging (0.4mm) guarantees consistently sharp images.
- **Multiple Exposure**
  - Revolution 4DC allows uninterrupted use during multiple exposures, such as full mouth acquisition, thanks to the Dynamic Duty Cycle, based on real time control over the bulb temperature, visible on the handheld display.
- **Health and Safety**
  - Revolution 4DC, with its constant potential, high frequency X-ray generator, significantly reduces radiation dosage compared to traditional X-ray units. Not only is the most harmful, low energy radiation almost completely eliminated thanks to high-efficiency generator, but the embedded 12” collimator minimizes the exposed bodily surface and increases the X-ray parallelism. This leads to better image quality and higher regard for patient’s health.

iM3 Small Animal Dental Equipment

CR 35 VETwin

Dental & Full body imaging in one digital system

High resolution blue image plates for dental radiography are scanned automatically with a laser beam focused to 12.5 μm (25 lp/mm). This way, images of unrivaled quality are created.

Dual Focus Technology - What are the advantages?

When conventional image plates are used for non-dental radiography, the laser beam diameter is focused to 50 μm (10 lp/mm), which guarantees brilliant low-noise images with high contrast for best diagnosis.

CR 35 VETwin. The only real ONE-FOR-ALL scanner
€14168.00
Cat No 10000

CR35 Vet. The only real ONE-FOR-ALL scanner.

• Combining full body and intra oral radiography in one compact machine
• Excellent quality, superior resolution images via Vet-Exam software
• Can be networked across 10 PCs in the practice
• Full DICOM compliance ensures easy export of data
• Largest range of plate sizes, from intra oral size 0 all the way up to 35 x 43 cm full body plates
• Compact design and wall mountable to conserve counter space in the practice
• Precision German manufacture with full 2 year warranty
• iM3 technical support
• Built in touch screen and SD card storage allows the CR35 to be used independent of a PC and images can be uploaded to Vet Exam software later
• Stand-alone operation via lithium ion battery solution and lightweight yet robust travel case

(*additional cost for full DICOM send)

iM3’s CR35 digital radiology suite has been one of our best investments ever.

This world class CR system delivers superior image quality with seamless integration between whole body and intraoral radiography. The software is cleverly designed, intuitive and easy to navigate. As always, the after sale support is second to none*

Dr Gary Turnbull BVSc (Hons) CMAVA
East Port Veterinary Hospital

Intraoral dental radiography

Intraoral Equine radiography

Whole body radiography

CR35 Vet. Pioneer in Equine Intra-oral Radiography

• Unique intra-oral image plates for equine available in 3 different sizes, designed in conjunction with Equine dental specialists
• Thanks to software that’s designed to be used with mixed practice, the database can be synchronised when used with laptop outside of practice
iM3 is a family owned Veterinary (exclusive) Dental Company established in Sydney Australia over 25 years ago by Philip Bloom.

Philip started Cenvet in 1960, a veterinary wholesaler and initially imported the vet base dental unit from Henry Schein in the USA. After many years of providing service and support for these machines it became apparent that changes should be made to improve the system. iM3 was established and Philip set about designing the iM3 Professional 2000 a machine that would be described by the Manual of Small Animal Dentistry BSAVA as “The Rolls Royce(R) of Veterinary Dental Stations”.

Today iM3 is a leading Veterinary dental company setting the standard in product innovation and industry firsts.

From its three locations in Sydney Australia, Vancouver WA USA and Co Meath, Ireland, iM3 supplies veterinarians throughout the world with high quality affordable veterinary dental products.

iM3 continues to design, develop and manufacture the latest veterinary dental machines, instruments, x-rays and dental consumables. Our large involvement in CE throughout the world means the designers that develop the new products also know how to use them.

The iM3 name is your guarantee of a quality veterinary specific dental product coupled with the very best after sales support and warranty in the industry.

Yours Sincerely,

Lehman Bloom
